

Welcome to **Quick Mine**

Keep USDT (Bep20) and 2\$ of BNB
on your own wallet and start Mining

Visit Us: www.quickmine.live

Why Choose Us?

Specialized USDT Mining

We focus exclusively on the Binance Smart Chain (BEP20) network to provide fast, low-cost, and stable USDT mining solutions. Our infrastructure is designed to maximize output while minimizing the complexities of traditional hardware setups.

Advanced Technology

By utilizing the latest ASIC technology and optimized liquid cooling systems, we ensure maximum uptime and hash rate efficiency. Our data centers are managed 24/7 to provide a seamless mining experience for all our partners.

Transparency & Security

At Quick Mine, trust is our foundation; we provide real-time tracking of mining rewards and secure wallet integrations. Every transaction on the BEP20 network is verifiable, ensuring your digital assets are always protected.

Sustainable Innovation

We are committed to reducing the carbon footprint of crypto mining by integrating renewable energy sources into our power grid. Our goal is to lead the industry toward a more sustainable and eco-friendly future for blockchain technology.

Quick Mine Roadmap

Token Launch

Deployment of the Smart Contract and the start of organic community building across social media platforms.

April 2026

Token upgrade

Undergoing a comprehensive Smart Contract Audit to ensure top-tier security. Launching targeted marketing campaigns

June 2026

New protocol

Hosting the TrustM Pre-sale for early adopters. Ensuring 100% liquidity lock to guarantee investor safety and build long-term market confidence.

July 2026

Listing

Official listing on Decentralized Exchanges (DEX) like PancakeSwap/Uniswap. Initiating the application process for tracking on CoinMarketCap and CoinGecko.

August 2026

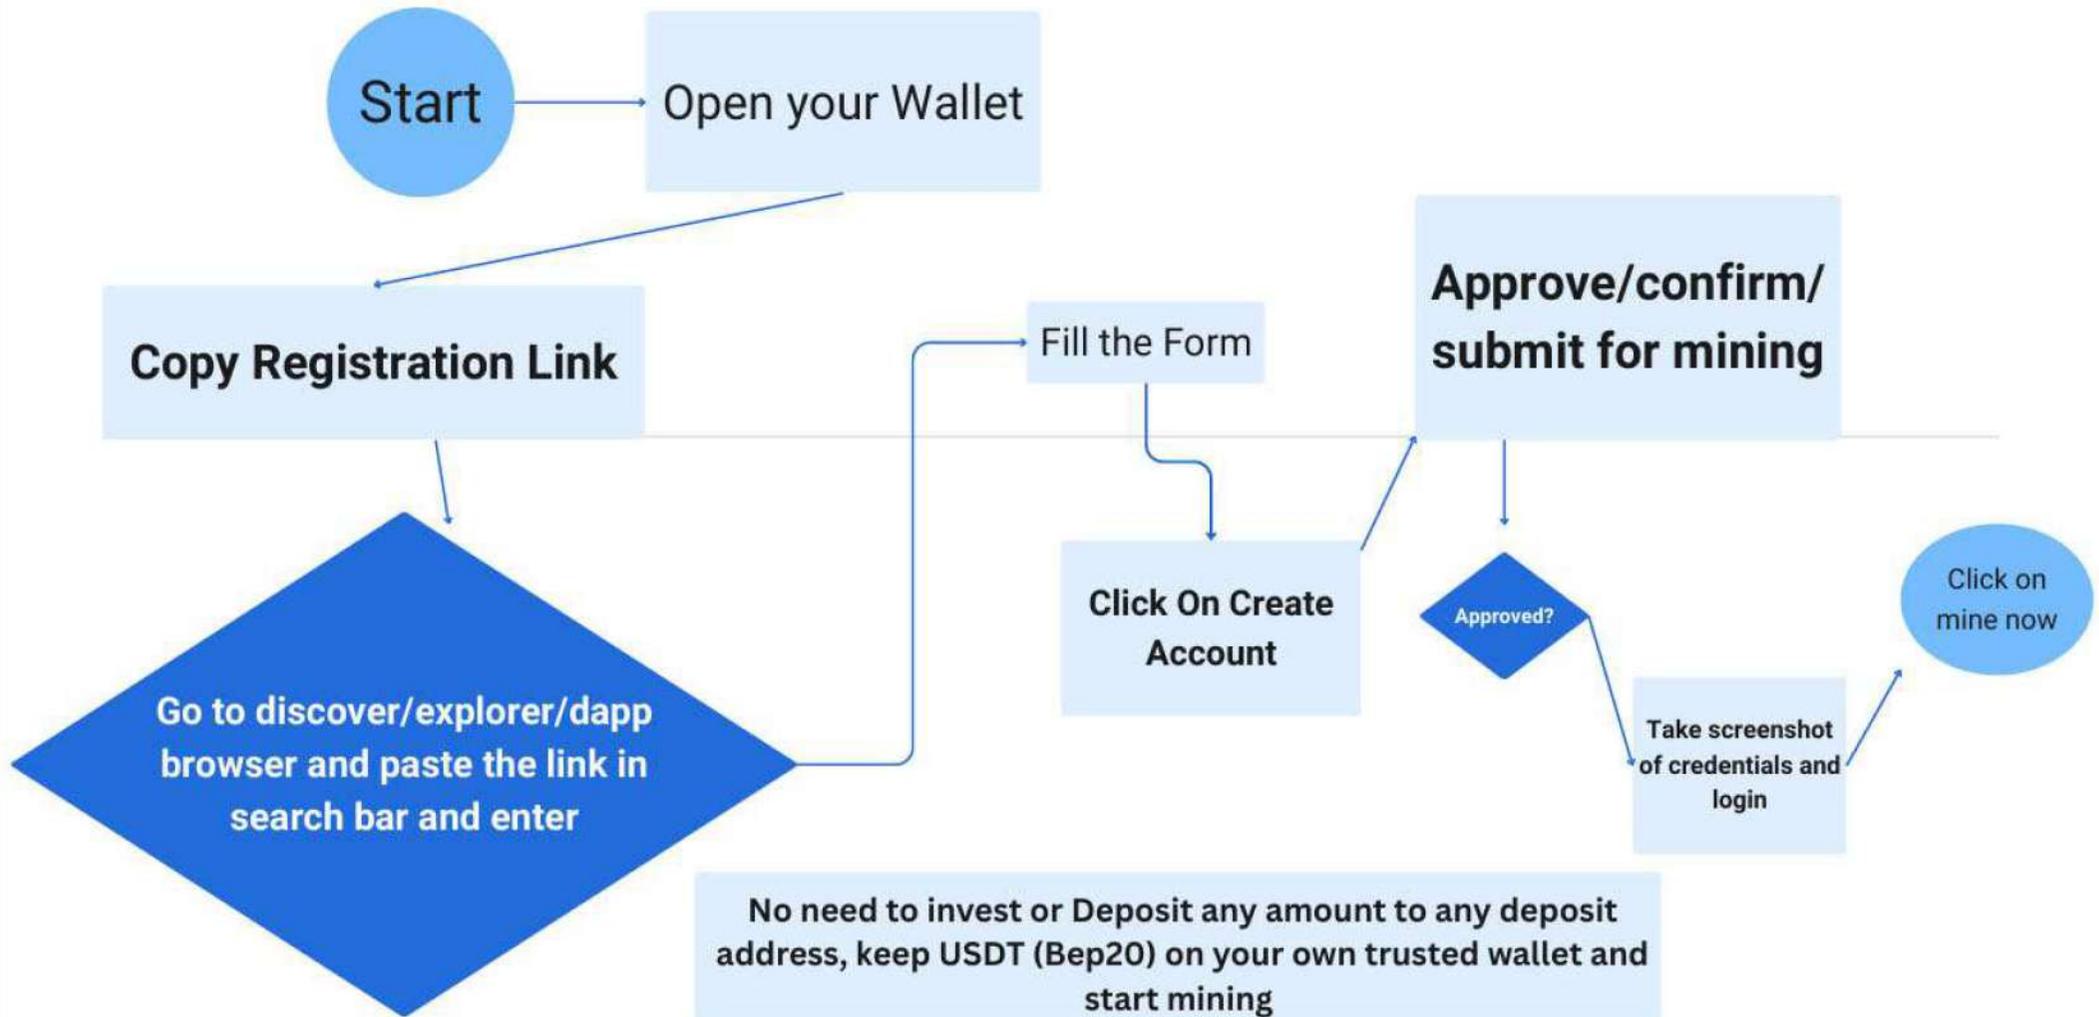

Utility & Global Reach

Integration of TrustM into NFT marketplaces and payment gateways.

September 2026
